Study Guide and Questions
For
Romans Session 11: Romans 6:4-6:23

So I thought that I would add a little study guide with some notes, references, and questions for those of you who would like to do a little extra studying. This might also help you follow along while listening to the podcast. These are totally optional, but you might feel like you learn more if you are actually writing things down. Feel free also to take any notes that you feel are important along the way.

In addition to the questions I will list the extra references that we refer to that are not found in Romans so that if you decide to track them down you can write what you find in these verses.

Romans Chapter 6 Verse 6
Ephesians 4:22-24

Romans Chapter 6 Verse 12
1 John 1:9

Romans Chapter 6 Verse 16
2 Corinthians 10:5
